The Learners Lab Foundation (TLLF) Family of Organizations (FO)

Established as of
August 2020

ASAP HIRES
Recruiting underway

The Association of Tax Exempt Startups & Entrepreneurs (ATESE) is the 501c Entrepreneurial Membership arm of TCG LLC charity, The Learners Lab Foundation (TLLF)

ATESE was established as a go-to place for tax exempt startups and entrepreneurs, regardless of what stage they are in, to network and articulate their battles when trying to obtain access to business & financial resources, to be included in federal, state legislation included for emergency assistance programs such as PPP, and to be recognized by peer business as **business entities** for grants, loans and similar resources such as those offered to “**established**” non profits and for profit entities.

ATESE will be the prime Peer Networking & Grievance (PNG) mechanism for this unique community of Entrepreneurs typically excluded, and not rightfully recognized as a viable business entity.

The resulting communications will result in think-tank research, advocacy initiatives, & education products from **The Institute for 501c Entrepreneurial Economic Development, Tax ID: 85-0759000**, and resource finding, financial management connections and technical assistance programs developed by **The Learners Lab Foundation**. Both target what will be identified as the very specific and unique needs amongst this market of 501c Startup & Entrepreneurs, language notwithstanding

ATESE’s function is to communicate with Tax Exempt Startup & Entrepreneurs to identify their issues, so that **The Institute** can research to identify all instances, **The Foundation** can create and disseminate advocacy education materials, **The Competence Group, LLC & The Foundation** can develop resources & programs for 501c Startup & Entrepreneurs, and design/host for members open-ended venues for networking with and supporting their peers.

ATESE’s Leadership, as well ATESE Members (on a 6-month rotating schedule) will enjoy a seat on The Foundation’s Advisory Council (Board) and Strategic Planning Subcommittee.
